

2023 Tax Brackets

America's income tax rates will remain the same for 2023 tax season as well as the 2024 tax season. However, due to substantial increases in prices, the tax brackets have undergone significant inflation adjustments. The IRS has announced that the tax brackets for the 2023 tax year will have upper limits that are 7% higher than those for 2022 returns.

The 2023 tax year, the return you'll file in 2024, will have the same seven federal income tax brackets as the 2022-2023 season: 10%, 12%, 22%, 24%, 32%, 35% and 37%. Your filing status and taxable income, including wages, will determine the bracket you're in.
